Classic Cool
Try a new angle with graphic composition book-inspired nails.

1. Swipe on a base coat. Then on each hand, paint one fingernail red, one blue, one yellow, and two white.

2. On each primary-colored nail, use a toothpick dipped in white polish to outline a triangle with its base at your cuticle. Then fill it in and let dry.

3. Use black striping polish on the white nails and triangles to re-create the composition notebook pattern. Just press down the tip of the brush in a random, repetitive motion.

4. Seal with top coat.
